

Conner Houdek

Software Engineer

cmhoudek04@gmail.com · 515-783-3922 · conner-houdek.com · github.com/cmhoudek04

OBJECTIVE

To obtain full-time employment in a software engineering role following graduation in 2027.

EDUCATION

- **Iowa State University (GPA: 3.0)** **2023-2027**
Bachelor of Science - Software Engineering
- **DMACC** **2021-2022**
Certificate in C# Development and Database/MySQL

EXPERIENCE

- **Iowa State ITS - Web Developer** **2023 – Present (3Y)**
 - Communicated directly with university clients to engineer satisfying full-stack web applications
 - Utilized tools such as Laravel, PHP, MySQL, and Docker
- **Hyvee - Checker** **2021 – 2023 (2.5Y)**
 - Engaged with customer service
 - Adapted to multiple departments and their needs

PROJECTS

- **UNIX File System** **2026**
 - A simple UNIX based file system to learn about operating systems processes.
 - Written on a riscv environment in C
- **Tripmates** **2025**
 - Collaborated with a team to create an itinerary planner for groups of users to plan trips and vacations
 - Full-stack mobile application that utilizes web sockets, REST APIs, CI/CD, and Google Gemini integration
 - Developed with Android Studio, Springboot, MySQL, Java
- **Autonomous Motor Vehicle** **2024**
 - Collaborated with a team to engineer an autonomous motor vehicle that can be piloted remotely through a python GUI
 - Utilized FPGA design to control various hardware devices such as infrared sensors, collision bumpers, and steering systems
 - Embedded systems project engineered with C, Python, Tkinter

SKILLS

- **Languages**
C, C#, C++, Java, Javascript, HTML, CSS, Python, PHP
- **Libraries/Frameworks/Tools**
React, Laravel, .NET, Drupal, Docker, Springboot, REST APIs, NodeJS, MySQL, MongoDB, Neo4j
- **Other Skills**
Web Development, Android Development, Embedded Systems, Git
